FULLY INTEGRATED FIRE AND EMS DATA SOLUTIONS

IMAGETREND® Elite™ Fire & EMS

A Faster, Easier Way to Document and Connect Information

ImageTrend's complete solutions streamline documentation of fire and EMS incidents from field to station. The advanced ImageTrend Elite™ solution has capability for fire and EMS reporting in a single system.
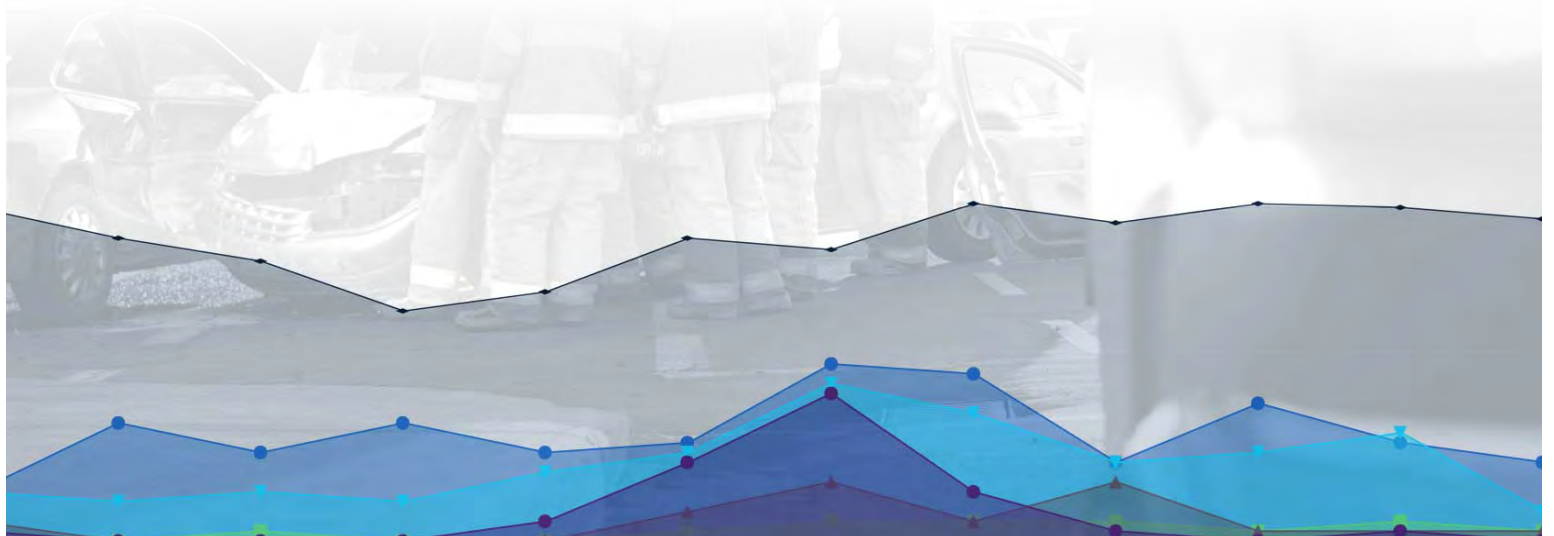

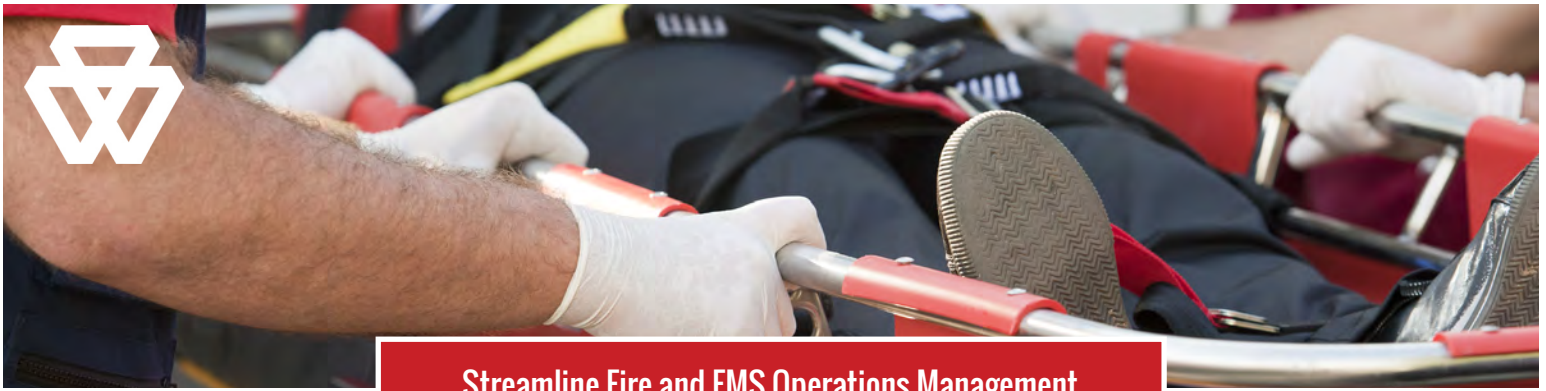

ImageTrend Elite™

ImageTrend Elite is the platform for EMS, fire incident (NFIRS) and other related documentation and reporting. The device-independent design and intuitive interface makes it fast and easy to deploy and use. Cloud-based interface or optional offline documentation with ImageTrend Elite™ Field gives you anytime, anywhere capability for EMS incidents. Elite is the most capable platform with NFIRS compliance and full NEMSIS 3 certified compliance from field-based ePCR Collect to proven statewide Receive & Process.

Locations/Occupants/Inspections Module

In addition to Elite's incident reporting capabilities, expand functionality to fire operations with the Locations/Occupants/Inspections module. Record your data in this cloud-based system where it is secure and safe with backups. Department personnel can make updates, reference records and obtain signatures from virtually anywhere there is an internet connection.

IMAGE*TREND*®

Streamline Fire and EMS Operations Management

NFIRS 5.0 and NEMSIS v3 Reporting

ImageTrend Elite™ is a comprehensive NFIRS 5.0 compliant records system with tools available to support your department's operations, including staff and training information, occupancy, preplans, hydrant location mapping and the fire inspections module. It also combines that powerful fire RMS with NEMSIS version 3.3.4 and 3.4 incident reporting. Elite is scalable for the needs of entities requiring single or multiple-department reporting.

Capabilities and Modules

Visual Informatics	Mobile Fire Inspections	EMS Billing Integrations
MARS Mapping/Reporting	Preplanning	CQI (EMS incidents)
Fire Inspections	CAD Integrations	EKG Monitor Integrations

Report, Analyze and Actively Monitor Your Data

ImageTrend's powerful reporting database gives you the flexibility to quickly and easily create dynamic reports. Monitor key performance indicators (KPIs), set up alerts or triggers, or integrate multiple data sources to reveal the trends in your community. ImageTrend Continuum™ (optional) gives you active data monitoring when, where and how you want it delivered for timely awareness of your operations.

Connected Data Across Providers and Entities

NFIRS 5.0 Compliant Fire RMS Solution

NEMSIS v3 Compliant Collect (ePCR) and Receive & Process (State)
