**FIRE**

Ensure your medical director, chiefs, medics and data managers are well informed by using your data to its fullest and automatically delivering it through your choice of text or email alerts, summary reports and via dashboards.

**Dashboards**

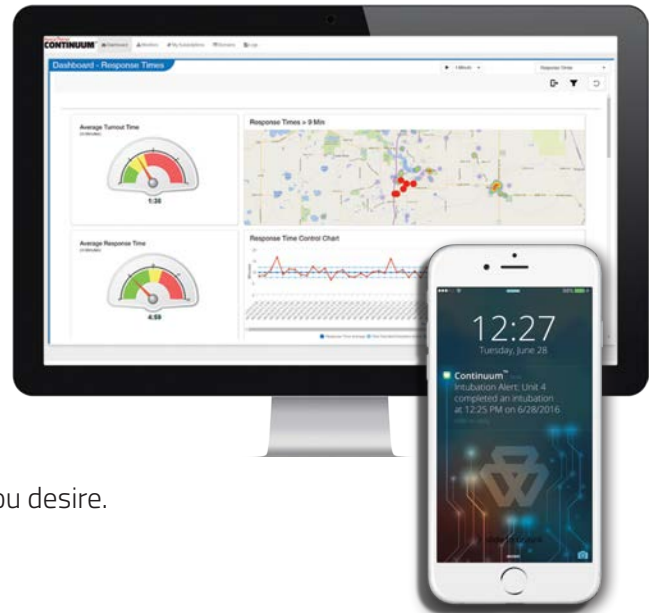

Automatically update and allow you to drill down using filters such as time frame, agency/department, specific criteria and more. Playlists that automatically refresh let you and your crews view the dashboards most relevant to achieving your goals. Data is visually displayed in several ways including gauges, maps, graphs, charts and many more.

**Alerts**

Stay informed with real-time updates as information is posted. Choose from receiving automated notifications via text, email and/or view information on dashboards. Based on permissions, subscribe yourself and others to specific monitors to receive notifications most relevant to their position.

**Harnessing the Power of Data**

It's time to do more with your data. ImageTrend Continuum helps you accomplish more without taking your limited time to build reports. Don't wait for the information you need to make the impact you desire.
